

# Church Homeless Charity

*Rebuilding broken lives*

At Church Homeless Charity, we know the names of every person your donations support. The grants we award are as unique as the individuals that receive them.

● We provide tailored grants to meet unique needs, helping homeless individuals on their journey to independence.

● We facilitate tangible change, from essential household items to vocational courses, aiding personal growth and stability.

● We champion the invisible, reaching out to those in shelters, and temporary accommodation, recognizing every individual's story.

## Phil's Story

Following a traumatic childhood, Phil has had a long history of substance misuse. It grew worse throughout the years until it began to affect every area of his life and eventually it led to the breakdown of his marriage. His mental health continued to decline and he ended up homeless with nowhere to turn.

Years later, and Phil is now on the road to recovery, and is no longer sleeping rough. It is so important to him now to see his children and rebuild his relationship with them. He is an active guy and when Phil asked for a bike to visit his family more regularly, CHC were happy to provide one. Now Phil gets to see his children more and without worrying about the cost.

*"It's one less worry, and that really helps."*

## Who do we help?

Church Homeless Charity helps over 3,000 homeless individuals in England to rebuild their lives every year. Supporting over 100 different schemes across the country, we provide support to individuals regardless of their religion, nationality or history.

We do not receive any funding from government, local authorities or the Church of England. We rely entirely on the generosity of our donors to keep helping those who otherwise might go without.
